

I listen to k-love radio everyday. I am able to learn about free events in our community. I love not having commercials and the uplifting news and information is critical to my day. So many people call in to receive help and support for their daily struggles at no cost to them. I have supported k-love monthly for about 5 years! It is my station and my children are blessed on a daily basis as we go to school and travel in the car. We need k-love!
